---

Hi Reid, I had only one comment on this draft which is on page 17-18 in the word file and I will also drop a pdf picture of it below. I may have additional comments depending on what the concentrations are assumed to impact the receptor. Feel free to call me to discuss, I am out on Friday and over at ORIA on Monday for ISCORS.

Subject: Draft Subpart W Preamble and Rule

Hello All,

Attached you will find the first draft of the Subpart W preamble and rule language. I would appreciate your review and comment. Because of the length if you could get comments back to me by Wednesday, August 3 I would appreciate it. Also, please feel free to use the review section in MS Word and submit comments or language changes directly onto the document, and please be as specific as possible. If you feel that language should be changed or reworded please do so. This way I can see everyone's comments side-by-side, and it should be easier to address them. Please let me know if you have any questions, and again, thank you for your participation in the workgroup.

Reid
